V-MIST

Ultrasonic vaporizer that enhances the effectiveness of hair treatments.
Ultrasonic technology delivers a fine vapor that helps open the cuticles; this allows treatments and colors to penetrate deeper for longer-lasting results.

The ozone function sterilizes the scalp and removes chemical odors.

The dual output allows you to use one device simultaneously for two washes side by side.

art.7297
~~2.000€~~ **1.335 €**

BENEFITS OF STEAM

DEEP HYDRATION
Hot steam helps penetrate the hair fibers, bringing water and nutrients to dry, damaged hair.

DEEP CLEANING:
ISteam dissolves impurities, dead skin cells, sebum, and product residue, freeing the skin and hair from any toxins.
The detox treatment, especially necessary in winter, requires about 10 minutes of hot steam weekly.
The anti-dandruff peel treatment requires about 5 minutes of hot steam twice a week for about a month.

SCALP STIMULATION:
Hot steam stimulates blood circulation, increasing the supply of nutrients to the hair roots and stimulating growth.
Typically, 10 minutes of hot steam treatment is required weekly for about 3 months.

TEXTURE IMPROVEMENT:
Steam can make hair softer, shinier, and easier to comb, while reducing frizz.
A 15-minute steam bath once a week for about three months is generally needed to make hair softer, shinier, and more resistant.

⁎PLEASE NOTE: Treatment times and frequency are indicative and can be customized based on the client's needs and situation.

BENEFITS OF OZONE

CLEANSING ACTION AND MANAGEMENT OF SPECIFIC PROBLEMS
Ozone therapy can be effective in treating problems such as dandruff, excess sebum, hair loss and hair regrowth, thanks to its ability to regulate sebum production and stimulate hair follicles.

BETTER ABSORPTION OF ACTIVE INGREDIENTS
It promotes the absorption of nutrients by the scalp, increasing the effectiveness of hair treatments and products.

REDUCTION OF INFLAMMATION
It has anti-inflammatory properties that help soothe irritated or inflamed scalps, preventing further damage to hair follicles.

ANTI-AGE EFFECT
Ozone therapy can help slow down hair aging, improving its health and resistance.

Ozone can be activated with the PC/TC programs using the dedicated OZONE ON/OFF button.
The ozone delivery time is two minutes, after which it stops automatically.

WATERFALL WITH DIRECT DELIVERY FROM THE MIXER

FOR ANY WASHUNIT EQUIPPED WITH AN ANTI-DRIP FORK

The quick attachment/detachment kit is screwed directly onto the anti-drip fork; this allows you to quickly attach and detach the hand shower or waterfall depending on your need. The waterfall is activated by normally opening the running water from the mixer.

art.7298

~~480€~~

319 €

To be added to the selected wash

VIDEO

The kit can also be mounted on existing wash basins and includes: waterfall hose, quick connection to screw onto existing fork, shower hose with quick connection (hand shower not included as the existing one can be used)

art.7298

~~480€~~

319 €

Existing washes with retractable hose must include the purchase of the anti-drip kit (hose connecting the mixer/fork and the fork)

waterfall kit + anti-drip kit

WATERFALL WITH RECIRCULATION SYSTEM

ONLY FOR BRAND NEW VEZZOSI WASHUNITS

Spa Waterfall is the innovative quick connect/release waterfall system that makes the Vezzosi wash basins a hair spa.
The water recirculation system allows you to avoid unnecessary waste with consequent savings on water consumption.
The waterfall is activated electronically via the control keyboard which also regulates the footrest and massage.
The sink must be filled to the level of the filter mounted inside the tub.
Always using the same recirculating water, it is possible to add aromas and essences for the treatment.
The waterfall with recirculation cannot be mounted on existing washes but only on new Vezzosi washes that come with the predisposition.
